

## Battery holder

### Description

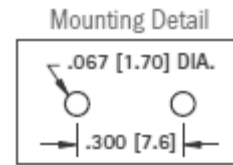

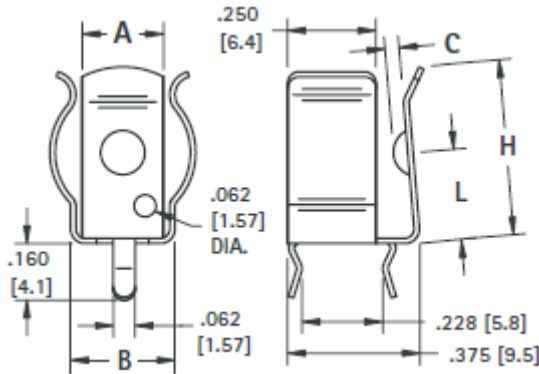

Snap-in clips to PCB for A and AA sized batteries.

### Features

- Fits for A and AA sized batteries
- Mounts securely to PCB board
- Advanced “Snap-In” design for thru hole mounting
- “Snap-In” clip holds firmly for wave soldering
- Reliable spring tension assures low contact resistance
- Low profile, economical design
- Retains battery securely to withstand shock and vibration
- Material: spring steel tin nickel plate

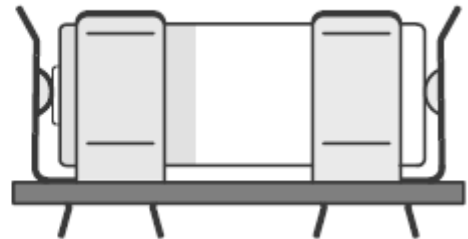

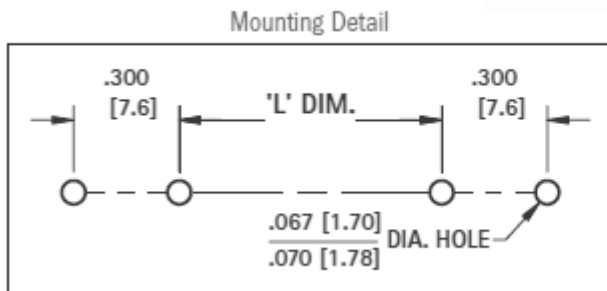

### Dimensions

inches [milimeters]

A	B	C	H	L	Material thickness	Battery diameter
.312 [7.9]	.375 [9.5]	.056 [1.4]	.593 [15.1]	.359 [9.1]	.012 [.30]	531-.665 [13.5-16.9]

L dimension						
A	4/5 A	2/3 A	1/2 A	AA	4/5 AA	1/2 AA
1.120 [1.12]	1.020 [25.9]	.645 [16.4]	.300 [7.6]	1.320 [33.5]	1.020 [25.9]	.300 [7.6]

All parameters are for guidance only. Verify your PCB layout prior to fabrication.

Ordering code: BH-AA-PCB1 (Single piece. 2 pcs needed for one battery.)
